It's just possible they took our last two April 1st very much to heart.

(Meaning, he didn't tell *me*. I'm really beginning to wonder about the helmet...)

OMG.

Did Mom know about that? Because I can see Dad colluding. He **must** have been colluding.

But *Mom*?

If the FBI wanted her to have a sense of humor, they would have issued her one.

...hey, Harpy, wanna help me move a desk out of Dad's office?

Oh, my pallid bust of Pallas.

A very *personalized* joke.
